Philippe GÜdemann : Drums/Samplers

Philippe started playing drums in the early 90's most influenced by rock, grunge and metal bands. Interested in playing energetic fills and powerful blast he is a former member of Your Own Decay (Death metal) After a decade of metal gigs in Europe and 3 albums he decided to form an electro acoustic band called Vouipe : a mix of progressive electronic pattern with a slightly taste of Jazz. In 2009, still looking for new challenges and definitely interested in playing more rock, he managed to join MotherKingdom and is now pretty happy to grow as a musician with his 3 others MK fellows...
